

# Do you know the power of compound interest like Taylor?

Hi! I'm Taylor. I started working when I was 16 to save money. Why? By putting away just \$25 a week, look how much I'll have!

**\$25 saved per week at 5.5% interest compounded monthly.**

SaveAndInvest.org

Compound interest is paid both on the money deposited and on any interest accumulated to date. The longer you save, the more compounding works for you. Go to [SaveAndInvest.org/Taylor](https://www.saveandinvest.org/Taylor) for more information.
